

# Falls Church Habitat Restoration

## Restoring natural ecosystems in the City of Falls Church

Join the City of Falls Church Habitat Restoration Team in restoring the local ecosystem in city parks. We will be removing damaging invasive plants as well as planting natives that benefit our local birds, butterflies, and other pollinators.

We have one outreach event in April and three restoration events this spring. **We are limiting the restoration events to 40 people**, so we are asking you to pre-register with this sign-up genius form at <https://bit.ly/Spring23HRT> or use the QR code.

Thanks so much for supporting Falls Church City Parks and the local ecology.
